## **PATRICIA MARKS**

Devoted mother, grandmother ardent student and friend to many but it does not stop there, Patricia was not one that looked for praise or to be the focus of this obituary, very much a private person.

A selfless person who liked to help others, often seeing qualities in others that were mirrored in herself. She developed an unquenchable thirst for knowledge in both healing and Judaism. Deeply interested in the world around her, she could engage with people from different backgrounds. Holding steadfast to strong principles that were to carry her through the difficult times during her life. Immensely proud and protective of her family she delighted in their achievements. Healing came naturally to Patricia and she immersed herself in caring for others. When Patricia became unwell it was her wish that her details remain private. Always impeccably dressed, hair tastefully styled, she now lives on in our memory.

Vicky Kay.
